OBJECTIVE

Diploma CSE student focused on software development. Built real-world applications using Python, databases, and React. Looking for internship to apply skills and gain industry experience.

SKILLS

- Python
 - SQLite
 - React (basic)
 - Tailwind CSS
 - Git & GitHub
 - Problem Solving
-

PROJECTS

Library Management System

- Built system to manage books, issue, and return
 - Tracks user borrowing history
 - Uses SQLite database for storage
 - Developed using Python and Tkinter
-

Student Database Management System

- Stores and manages student records
- Supports add, update, delete, and search
- Improves data handling efficiency

- Built using Python and SQLite
-

Staff Data Management System

- Manages employee records with CRUD operations
 - Stores data securely in database
 - Designed for fast and easy access
 - Built using Python and SQLite
-

EDUCATION

Diploma in Computer Science Engineering
(Currently Pursuing)

STRENGTHS

- Strong practical project experience
 - Fast learner
 - Focus on real-world problem solving
 - Consistent improvement
-

DECLARATION

I confirm that the above information is true and correct.
